

# AGRITURISMO POMANTELLA

The Agriturismo Pomantello is an ancient stone country house, from the 16th Century, renovated in a natural architectural style, and picturesquely situated on a hilltop near Orvieto on the border of Umbria and Tuscany, offering an unique 360° panoramic view to the adjacent Nature Park and the medieval village Torre Alfina

The mild climate and the beautiful surroundings make this, the right place to relax and unwind. Agriturismo Pomantello is a family business, run by Monika and Fabrizio. They started organic farming in 1980 and have been operating as holiday farmhouse rental since 1985. The aim of living in harmony with the surrounding nature has always been important for the family: a solar panel system provides warm water, photovoltaic cells generate electricity and the rainwater is collected in cisterns for irrigation.

Over the years, six apartments have individually been furnished with loving detail. Comfortably and in a rustic style, the apartments have terracotta flooring, wooden beam ceilings, antique furniture and are decorated with paintings by local artists.

Three donkeys, rabbits, a cat and three dogs underline the idyllic atmosphere on this farm. For children, there are plenty of facilities on the property: a swing, a slide, a seesaw, a sandpit, a ping-pong table and a trampoline.

In the months of July and August there also a pool for refreshing.

Do not miss when the owner, Fabrizio, prepares typical and delicious dishes, with herbs from the garden and products from the area in the spectacular Taverna .One specialty is a pizza-dinner with house-made dough and baked in a traditional wood stove.

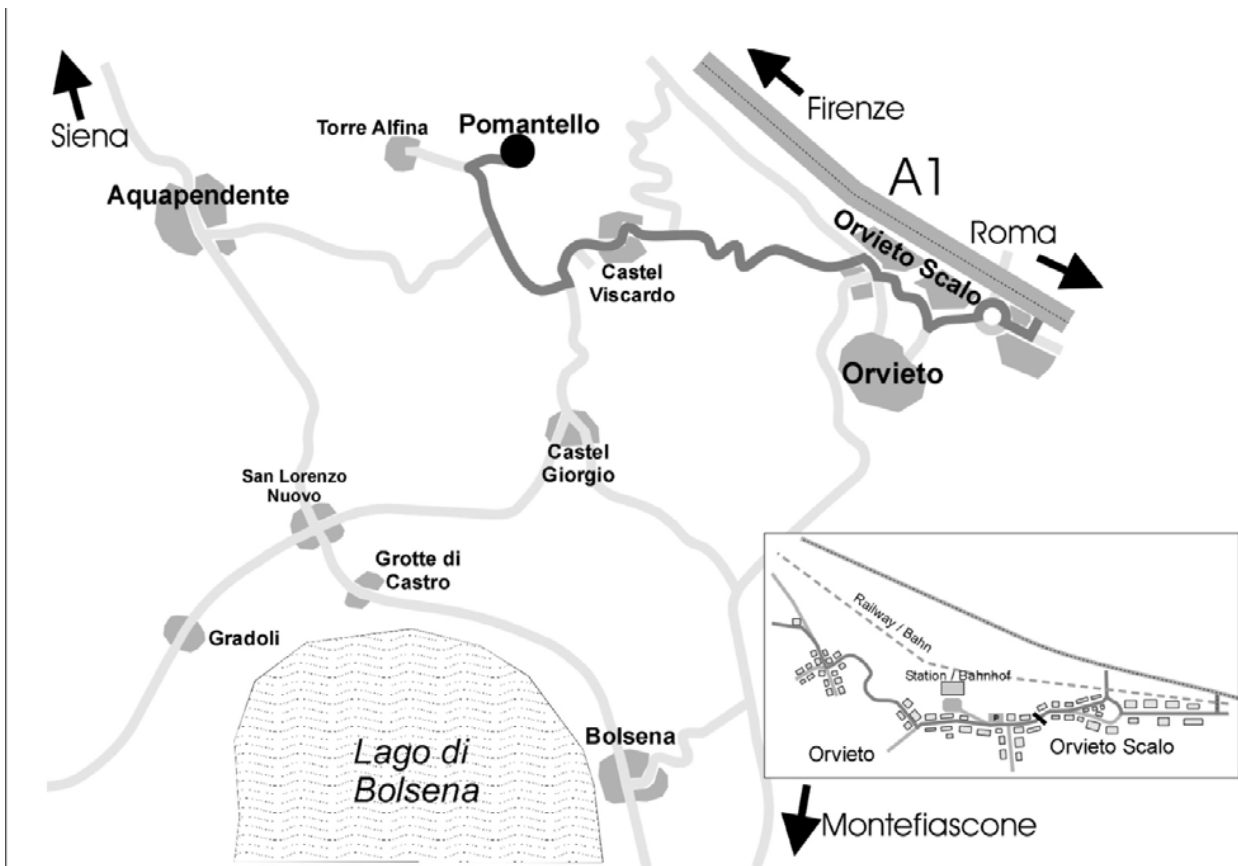

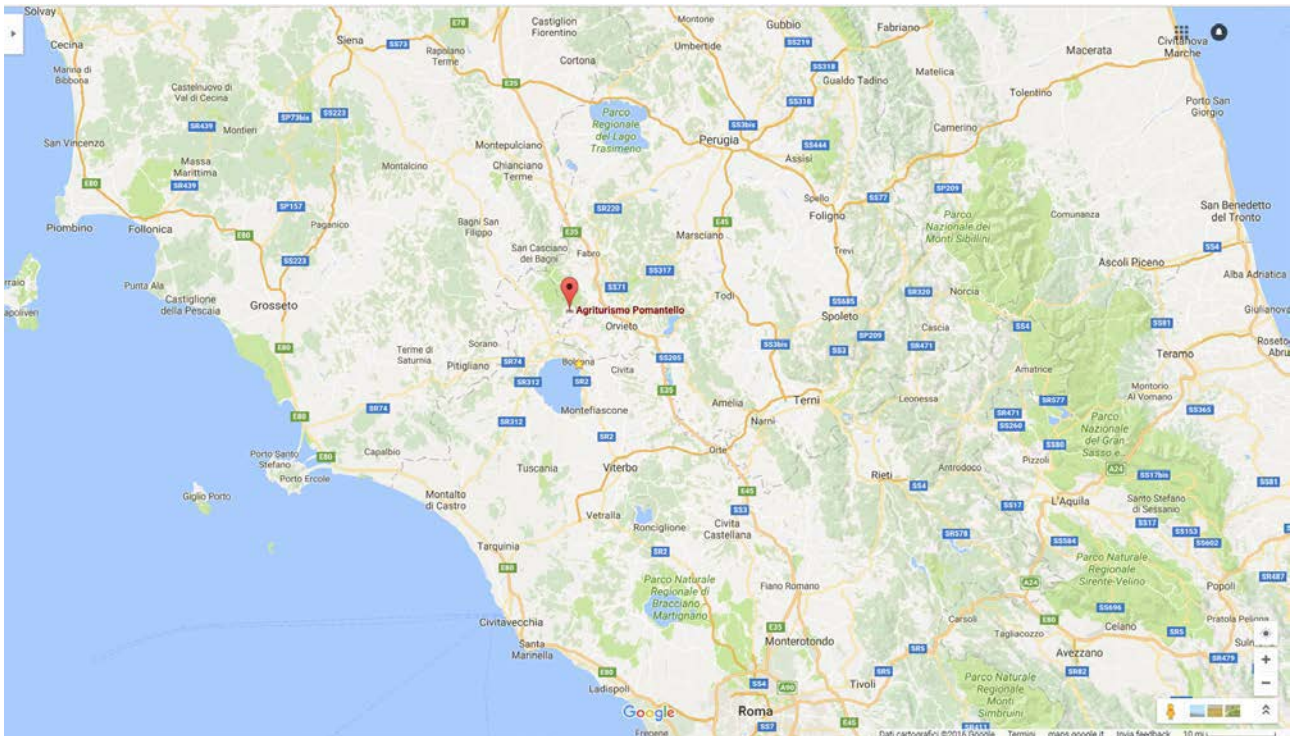

The large garden is lovingly decorated with artistic elements and gives a lot of space to linger and enjoy the beautiful panoramic views.

In each apartment, you will find an in-house book with the best sightseeing opportunities the area has to offer.
